

AUTOMOTIVE

Porsche Dealership, Colchester

Horizon Construction is delighted to present this automotive construction project for the Porsche Dealership in Colchester, Essex. On completion of an "off-site" aftersales facility, this scheme involved the conversion of the previous workshop into prestige offices and vehicle sales area, whilst keeping the attached sales facility operational. Phase 2 of the project was to relocate the sales facility into the new showroom and refurbish and connect the previous area to form one new high specification modern facility.
