

HEALTHCARE

Fornham House Care Home, Bury St Edmunds

Horizon Construction was delighted to complete this 17-bedroom healthcare extension to existing care home facilities. It included an extension with en-suite bathrooms, fully accessible disability bathroom, medical room with drug store, large open-plan day space and domestic kitchen storage along with a sensory garden for residents. The extension was linked to previous home and involved a considerable extent of external works, including tree clearance and a single-story extension. The construction was standard form with access utilising 150m specialist track system to access the work area.
