

RESIDENTIAL

The Signal Yard, Chelmsford

Horizon Construction is delighted to present this award-winning residential construction project. The Signal Yard is located near to the train station in the city centre of Chelmsford, Essex. The project for a longstanding client, South East Property Group, involved the construction of 14 apartments and 3 commercial outlets.

All external and internal works were finished to highly detailed specifications and requirements. Our team successfully managed the restrictions and necessary considerations that an inner-city construction site requires.

This development won the Mixed Use Development Award at the International Property Awards 2020-2021.

-  Location: Chelmsford, Essex
-  Client: South East Property Group
