

EDUCATION

Ipswich Academy, Suffolk

This education project was for a new client located in Ipswich. This summer holiday project included the soft strip and internal refurbishment of the existing food technology block. The aim of this project was to create a modern food technology room at the hub of the Ipswich Academy. The refurbishment included the formation of new classrooms and food store. The project was completed ahead of programme, to specification and on budget, ready for the new school year.

- Location: Ipswich, Suffolk
- Client: Paradigm Trust
- Architect: Concertus
